

# German Packaging Act: Instructions for licensing your packaging quantities in the Lizenzero online shop

In addition to the obligation to **register and report data with the LUCID Packaging Register**, the German Packaging Act (VerpackG) contains the requirement for packaging quantities to be part of a fee-based **dual system (“licensing”)**. This serves to finance the collection, sorting and recycling of packaging waste.

The Lizenzero online shop for packaging licensing provided by the Dual System Interzero Recycling Alliance GmbH helps you to take care of the requirement to participate in such a system in just a few steps. Just follow our instructions step by step:

**1**

Navigate to the Lizenzero shop  
<https://www.lizenzero.de/en/>

**2**

Click on „Calculator“ in the top right-hand corner of the page.

**3**

In the calculator, select the year for which you wish to license your packaging.

**4**

Then enter your packaging quantities per material type **in kilograms** for the entire year. The calculator shows you directly how much your license costs will be.

**5**

Did you enter all of the quantities? Then click on „Next“.

**6**

In the next step, create a Lizenzero account by correctly filling in all the required fields in the form.

**7**

If you have already registered with the Central Agency Packaging Register, please enter your registration number here as well.

If not, please enter this information in your Lizenzero account as soon as your registration has been completed.

**8**

Accept the privacy policy by checking the box next to “I hereby accept the data protection regulations” and click on „Continue“.

**9**

Select your preferred payment method and then click on „Next“.

**10**

Check the three boxes to agree to the privacy policy and terms and conditions.

**11**

Please check the information you have just entered and click on „Complete Payment“.

**12**

Your licensing agreement will be properly completed as soon as you have paid the invoice amount due.
